Claims 1-17 (Cancelled)

Claim 18 (Currently Amended)

A vehicle rear view mirror comprising a housing and a mirror lens carried by a location frame rigidly mounted within and directly connected to said housing, said frame and/or housing being made from a resilient material, and the frame being a resilient snap-fit within the housing characterized in that ~~the frame is located within a rim of the housing~~ the housing has a rim portion within which the frame is located without extending laterally over the outer edges of said housing.

Claim 19 (Previously Presented)

The mirror of claim 18 characterized in that said housing is provided with frame retainment means and said frame is provided with housing engagement means.

Claim 20 (Previously Presented)

The mirror of claim 19 characterized in that said frame retainment means comprises one or more catches and said housing engagement means comprises one or more abutments which co-operate with said catches.

Claim 21 (Previously Presented)

The mirror of claim 18 characterized in that said frame is provided with lens engagement means.

Claim 22 (Previously Presented)

The mirror of claim 21 characterized in that said lens engagement means comprises one or more abutments adapted to engage said lens.

Claim 23 (Previously Presented)

The mirror of claim 21 characterized in that said lens is a resilient snap fit in said frame.

Claim 24 (Previously Presented)

The mirror of claim 18 characterized in that said frame and/or said housing are made from a resilient synthetic plastics material.

Claim 25 (Previously Presented)

The mirror of claim 18 characterized in that said housing comprises a casing adapted to cover the rear face of said lens.

Claim 26 (Previously Presented)

The mirror of claim 18 characterized in that said lens is concave or convex or flat.

Claim 27 (Previously Presented)

The mirror of claim 26 characterized in that said lens is of the polycarbonate unbreakable type, or any other substrate on which a reflective surface may be deposited.

Claim 28 (Previously Presented)

The mirror of claim 26 characterized in that said lens is glass.

Claim 29 (Previously Presented)

The mirror of claim 26 characterized in that said frame is provided with slots at each corner to provide further resilience to said frame.

Claim 30 (Previously Presented)

The mirror of claim 18 characterized in that said housing and said frame are releasable detachable.

Claim 31 (Previously Presented)

The mirror of claim 25 characterized in that said housing is provided with means to receive a mounting attached to said vehicle.
